

Please do not allow Sinclair Broadcasting to force stations to air the anti-Kerry documentary. I've read that this company is a large contributor to the Bush campaign, and this is obviously a political move on Sinclair's part. This isn't what our airwaves are about! They are supposed to be serving the public's interests, not a political agenda.

I respectfully request that you order the Sinclair Broadcasting company to immediately stop their order to mandate that their stations air this political propaganda.
